

Esophageal Motility

- Your appointment is on:

(date) _____

(time) _____

With Dr. _____

- What is the test?** Your physician has ordered a test called an Esophageal Motility, or Manometry. This test will enable your physician to obtain information regarding the pressures and function of your esophagus (feeding tube)
- How should I get ready?**
- DO NOT eat or drink anything for four hours prior to test.
- What else should I know?** If you can not keep your appointment, please call at least 24 hours in advance. Call (312) 942-5861 to cancel or reschedule.
- On the day of the test.** Please come to Rush Professional Building, 1725 W. Harrison St, Suite 207. Take Elevator I. You will need to provide an insurance card, picture ID and referral, if needed.
Bring a list of your medication and your ordering physician's name, address and telephone number.
- The exam** The procedure takes approximately 30 minutes. **If you are allergic to latex, please notify the motility nurse before beginning the procedure.**
- During the procedure, a small tube is placed down your nose and into your esophagus.
 - You will be asked to swallow small amounts of water at certain times during the test.
 - The tube will not interfere with your breathing or swallowing.
- Test results** It may take approximately two weeks for your physician to receive the results.
- Questions?** If you have any questions, please do not hesitate to call us at 312-942-5861.
