Community Snapshot:
River Forest

Adopted on June 8, 2016
Ten miles west of the Loop on the eastern bank of the Des Plaines River, River Forest grew from a settlement established near a sawmill in 1831 into one of the Chicago area’s most picturesque suburbs. Like its sister village of Oak Park, the community experienced growth after the Chicago fire of 1871, when displaced city residents moved west looking for a new place to settle. After the village made infrastructure improvements in the late 19th century, the population grew quickly and became known for significant residential architecture such as Frank Lloyd Wright’s Winslow House.

River Forest has a strong base of residents who are committed to keeping the community vibrant and providing support to those who need it. For example, through grants and philanthropic fund management, the Oak Park-River Forest Community Foundation supports local nonprofits and social-service organizations that include the Oak Park-River Forest Food Pantry, which reduces food insecurity for more than 5,000 households in the community and surrounding areas each year, and Housing Forward, which helps people transition from homelessness to stable housing.

[We have] good access to retail. I love the fact that there’s a little Lake Street here, so you can walk to the movies.

What are the potential barriers to good health?

HARDSHIP INDEX

Because the hardship index referenced in this report’s other community snapshots is calculated only for community areas within the city of Chicago, River Forest does not have a comparable index number. Its statistics in some of the areas measured by the hardship index include the following (River Forest at left, Cook County at right):

CHILD OPPORTUNITY INDEX

The Child Opportunity Index (COI) assigns a “very high” ranking to River Forest in all three opportunity areas it measures: education; health and environment; and social and economic. This gives the community an overall COI ranking of “very high.”

LACK OF HEALTH INSURANCE

River Forest residents have health insurance at a much higher rate than residents of Cook County and residents of the U.S. overall.

CRIME

River Forest’s rate of violent crime — homicide, rape, robbery and aggravated assault — is slightly more than one-fourth that of Cook County overall.

HIC survey participants asked whether they had not sought medical care due to cost anytime in the past 12 months: 74.7% said “no.”
What is the impact of the barriers?

YEARS OF POTENTIAL LIFE LOST

The annual years of potential life lost per 100,000 residents aged 75 and younger due to selected causes of death in River Forest is 4,230, approximately 50 percent lower than the annual years of potential life lost in Chicago.
