

Schedule Your COVID-19 Vaccine

Rush has been working with local and city officials to begin delivering the COVID-19 vaccine based on eligibility guidelines and availability. Certain members of the community will be able to schedule a COVID-19 vaccine appointment via access code. **An appointment is required to receive your vaccine.** Your access code will be delivered separately. For assistance, please call (312) 563-6600.

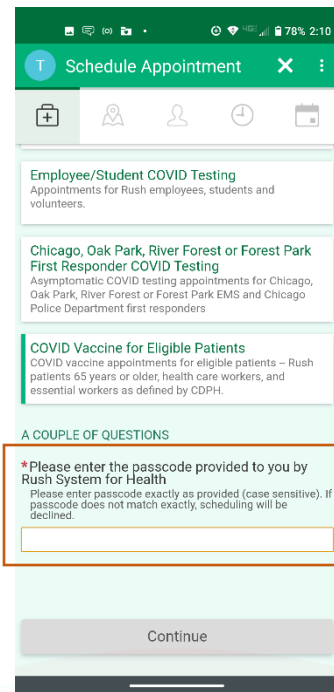

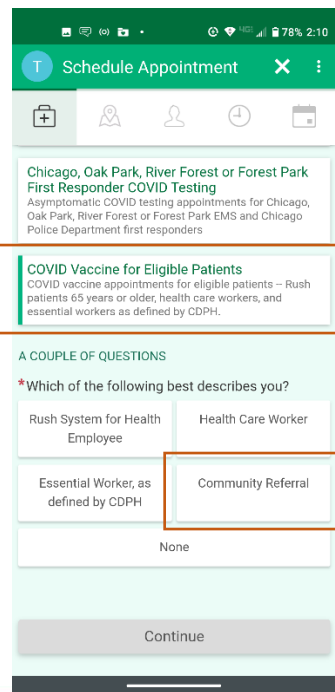

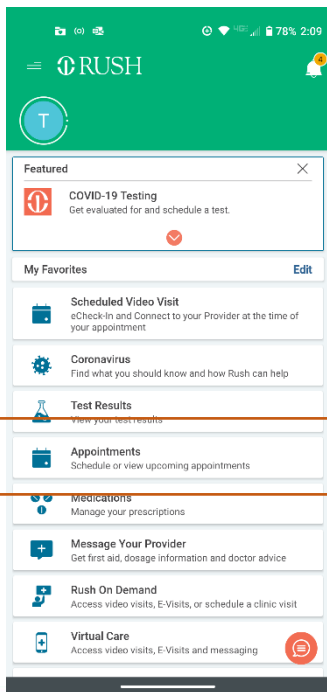

Before you schedule:

You will need a MyChart account to schedule your vaccine appointment. Your MyChart username and password will also work on the My Rush app.

- **If you've ever been a Rush patient and already have a MyChart account,** your ticket will show in your account. If needed, reset your credentials at mychart.rush.edu.
- **If you've ever been a patient at Rush and you're not sure if you have a MyChart,** use the link in your scheduling email to create an account or call (312) 563-6600 to set up your account.
- **If you've never been a patient at Rush,** you can sign up for a MyChart account yourself. Use the link in your scheduling email to create an account or go to rsh.md/MyChartSignUp and select Verify Identity with a Third Party. If you need help, call (312) 563-6600.

How to schedule your COVID-19 vaccine using an access code:

1. Download the My Rush app or go to mychart.rush.edu. Log in with your credentials.
2. In the app, navigate to Appointments > Past and Future Appointments > Schedule an Appointment. On your computer, navigate to Visits > Schedule an Appointment.
3. Select COVID Vaccine for Eligible Patients > Community Referral. Enter your access code.
4. Answer the questions and select your preferred appointment time. Enter "covid vaccine" in the text field on the confirmation page. Review your information and schedule your appointment.
5. Complete eCheck-in and sign the e-consent form within 24 hours of your vaccine appointment.
6. Arrive at your appointment time to receive your first dose of the vaccine. Follow the arrival instructions in your appointment confirmation.
7. In most cases, you will be scheduled for your follow up vaccine during your visit.

Get Started

Download the My Rush app to get started, available in the App Store or Google Play:
