**Residency Program:** The combined PGY1&PGY2 Health-System Pharmacy Administration and Leadership (HSPAL) Residency Program is a two-year residency established to provide specialty training for residents interested in health-system pharmacy administration. As a PGY1, the pharmacy resident will complete the requirements of the PGY1 pharmacy practice residency at Rush University Medical Center (RUMC). Experiences are tailored to the individual resident's background and interests. As a PGY2, the HSPAL pharmacy resident will be exposed to a variety of practice areas including Clinical Pharmacy Services, Pharmacy Operations, Medication Safety and Pharmacy Leadership.

**Purpose Statement:** PGY2 residency programs build upon Doctor of Pharmacy (PharmD) education and PGY1 pharmacy residency training to develop pharmacist practitioners with knowledge, skills, and abilities as defined in the educational competency areas, goals, and objectives for advanced practice areas. Residents who successfully complete PGY2 residency programs are prepared for advanced patient care or other specialized positions, and board certification in the advanced practice area, if available.

**Mission Statement:** The mission of the Rush PGY1&PGY2 HSPAL Residency is to graduate compassionate pharmacy leaders who excel as both clinicians and leaders. The HSPAL Residency at Rush will provide the resident with a well-rounded experience and is designed to develop the resident's leadership expertise in managing a pharmacy system through a variety of required and elective learning experiences. Additionally, residents will have opportunities to gain experience in teaching, research, and quality improvement.

**Administration Experience:** The PGY1&PGY2 HSPAL resident will have the opportunity to participate in organizational leadership in an academic teaching environment. The mission of Rush is to improve the health of the individuals and diverse communities we serve. As a PGY2, the HSPAL resident will have the opportunity to manage a system-wide project.

**Research Experience:** The PGY2 HSPAL resident will be expected to complete a longitudinal research project suitable for publication. The project will be a system Quality Improvement or Performance Improvement initiative. The PGY2 HSPAL resident will present at the regional residency conference or a local or national specialty meeting.

**Teaching Experience:** The PGY2 HSPAL resident will serve as a preceptor for Doctor of Pharmacy students from local colleges of pharmacy and PGY1 Pharmacy Practice Residents. There may be opportunities to lecture at local colleges of pharmacy.

**Staffing Experience:** The PGY2 HSPAL resident will be responsible for staffing every fourth weekend and 2-3 assigned holidays at RUMC.

**Pharmacy Administrator on Call:** The PGY2 HSPAL resident will be expected to rotate through covering the pharmacy administrator on call pager Monday-Friday (2 training weeks and 6 independent weeks) at RUMC. Responsibilities include, but are not limited to, participating in Hospital Incident Command, reviewing non-formulary medication requests, managing operational/staffing efficiencies and regulatory compliance monitoring.
