Core Rotations

Emergency Medicine (20 weeks)
  Combined adult & pediatric
  • Gary D Peksa, PharmD, BCPS
  • Giles Slocum, PharmD
  • Joshua DeMott, PharmD, BCPS, BCCCP

Medical Intensive Care Unit (4 weeks)
  • Joshua DeMott, PharmD, BCPS, BCCCP
  • Drayton Hammond, PharmD, MBA, BCPS, BCCCP

Pediatric or Neonatal Intensive Care Unit (4 weeks)
  • Jessica Jacobson, PharmD, BCPS
  • Kristen Welch, PharmD

Trauma (4 weeks, offsite)
  • Robert K. Mokszycki, PharmD

Toxicology (4 weeks, offsite)
  • Carol DesLauriers, PharmD, DABAT

Elective Rotations

Cardiac Surgery (CVICU)
  • Payal Gurnani, PharmD, BCPS, BCCCP
  • Mary Jane Newell, PharmD
  • Nicholas Panos, PharmD, BCPS
  • Georgeanna Rechner, PharmD, BCPS, BCCCP
  • Kena Lanham, PharmD, BCPS

Surgical Intensive Care Unit

Neuroscience Intensive Care Unit

Cardiac Intensive Care Unit

Pre-Hospital / Emergency Medical Services
  • Chicago Fire Department

Longitudinal Experiences – Preceptor determined by rotation and project

Teaching Opportunities:
- Didactic lectures
- Precepting IPPE and APPE students
- Pharmacy Grand Rounds (2 times per year)
- Critical Care / Emergency Medicine Grand Rounds

Policy/Management:
- Emergency preparedness
- Subcommittee Membership
- Policy/Protocol development
- Medication Utilization Evaluation
- Monograph

Residency Research Project
- Submit for IRB approval, collect data, analyze results and present at Great Lakes Residency Conference (or emergency medicine meeting of choice, if accepted)

Pharmacy Services
- Weekend Staffing: 4th weekend
- On-call program (24 hour, in-house)
- Code Blue/Acute Stroke/Rapid Response Team/Restricted Antimicrobials/Kinetics/HIT/Factor Product Stewardship
PGY2 RESIDENCY PROGRAM: The Emergency Medicine PGY2 Residency Program is a one year residency established to provide specialty training for residents interested in emergency medicine. The PGY2 program at Rush has one PGY2 emergency medicine resident and additional PGY2 residents in critical care, infectious diseases, hematology/oncology, and solid organ transplant.

PGY2 PURPOSE STATEMENT: The mission of the Rush PGY2 Emergency Medicine Pharmacy Residency is to graduate compassionate emergency medicine pharmacists who excel as both clinicians and scholars. The Emergency Medicine Residency at Rush University Medical Center will provide the resident with a well-rounded experience and is designed to develop the resident’s clinical expertise in the care of patients through a variety of core and elective rotations. Additionally, residents will have opportunities to gain experience in teaching, research and quality improvement.

Patient Care Experience: The PGY2 resident will have the opportunity to participate in multidisciplinary care of patients in an academic teaching environment. The resident’s foundation in emergency medicine will be developed through practice in a 60-bed combined adult and pediatric emergency department (ED) with ~75,000 patient visits annually. The ED is an accredited stroke and chest pain center, designated as an Emergency Department Approved for Pediatrics, and recognized as a state-of-the-art disaster preparedness facility. The medical intensive care unit consists of 25-beds covered by two treatment teams. The pediatric or neonatal intensive care units consist of 18 or 60-beds, respectively. Rotations in trauma and toxicology (Illinois Poison Control Center) will be completed offsite. Opportunities for electives include, but are not limited to cardiac surgery, surgical intensive care, neuroscience intensive care, cardiac intensive care, and emergency medical services (pre-hospital care).

Research Experience: The PGY2 resident will be expected to complete a longitudinal research project suitable for publication in collaboration with an experienced preceptor. The project will be of the resident’s choice and involve an emergency medicine concept. The project will be presented at the Great Lakes Residency Conference in April and/or other emergency medicine conference, if accepted.

Teaching Experience: The PGY2 resident will serve as a preceptor for Doctor of Pharmacy students at an affiliated college of pharmacy. He/she will also lead organized group discussions with pharmacy students and PGY1 residents. There will be opportunities to lecture in the critical care elective at Midwestern University, the Acute Care Nurse Practitioner Program and the Perfusion Technology Program. The resident will also have the opportunity to participate in a teaching certificate program.

Staffing Experience: Residents will be responsible for staffing every fourth weekend.

On-call program: The resident will be expected to take overnight call in the medical center approximately one out of every 10 to 14 nights. Responsibilities during call include, but are not limited to, pharmacokinetic drug monitoring, answering clinical questions, participation in code blue and rapid response emergencies, approval of restricted antimicrobials, and participation in acute stroke emergencies.
